to try and wear out a suit of indestructible

Heartbetter Clothes

They will find it the hardest work they ever did.

We have made a study of the "Boy Problem"—his needs, and how poorly they are met by the ordinary boys' clothes.

"WEARBETTER" clothes are made to forestall the boys' efforts to burst seams, rip off buttons and tear holes.

Come in, to-morrow or any time, and let us show you these clothes. We carry all sizes, patterns and weights.

We sell the famous "WEARBETTER" COMBINATION SUITS—one coat and two pair pants; one plain and one knickerbocker. Your boy will get double the service out of one of these suits.

College Course in Politics.

To Columbia university belongs the credit of offering the first course designed to give students a practical knowledge of the conduct of political affairs. That institution has asked the bureau of municipal research in New York to give the members of the class the benefit of the experience it has derived from the study of the affairs of that city, and the invitation has been accepted. The growing demand for the adoption of the scientific methods of city governments lends support to the view that college men will be in demand in this department of the public service, hence the propriety and usefulness of a university course established on the lines indicated by the innovation at Columbia.

Haitians a Lazy Lot.

Sydney Brooks, writing to the London Chronicle about Haiti, says the Haitians were the first people in the world to abolish slavery, and Mrs. C. R. Miller, writing in Leslie's Weekly, says of Haiti: "In that little republic, covering about 10,000 square miles, within five days' sail of New York, one may encounter more strange complications and a greater disregard for human life than in the remote countries of the east. Situated in the very heart of the West Indies, where civilization exists in a high degree, Haiti alone has kept her doors closed to progress. She became an independent state more than 100 years ago. Her rich lands were already under cultivation, but the lazy natives allowed the plantations to go to ruin, and forests have grown up instead."

Farm Employment for Criminals.

Gov. Harris of Ohio believes that criminals can be employed on a farm with advantage to themselves and the state. He proposes that prisoners in the penitentiary who are not confirmed criminals be transferred to the reformatory and put to work on the state farm. "It is the conditions of our cities that breed crime," says the governor. "Most of it can be traced to idleness and drink, and idleness is frequently the cause of drink. There is little drink in the country and practically no idleness. If the young man who had slipped over the bounds of a law were taught scientific farming he would come to like it and escape the associates who carry him down when he returns to the city."

John Morro has returned to Raton from a two weeks' stay at his ranch in the northeastern part of Colfax county.

S.S.S. NATURE'S PERFECT TONIC

Something more than an ordinary tonic is required to restore health to a weakened, run-down system; the medicine must possess blood-purifying properties as well, because the weakness and impurity of the circulation is responsible for the poor physical condition. The blood does not contain the necessary quantity of rich, red corpuscles, and is therefore a weak, watery stream which cannot afford sufficient nourishment to sustain the system in ordinary health. A poorly nourished body cannot resist disease, and this explains why so many persons are attacked by a spell of sickness when the use of a good tonic would have prevented the trouble. In S. S. S. will be found both blood-cleansing and tonic qualities combined. It builds up weak constitutions by removing all impurities and germs from the blood, thus supplying a certain means for restoring strength and invigorating the system. The healthful, vegetable ingredients of which S. S. S. is composed make it splendidly fitted to the needs of those systems which are delicate from any cause. It is Nature's Perfect Tonic, free from all harmful minerals, a safe and pleasant acting medicine for persons of every age. S. S. S. rids the body of that tired, worn-out feeling so common at this season, improves the appetite and digestion, tones up the stomach, acts with pleasing effects on the nervous system, and reinvigorates every portion of the body.
